

GEToolbox® Durable Marking Tape and Shapes are a thick PVC films and self-adhesive tape consisting of a PVC-film backing and a modified acrylic adhesive. GEToolbox® Band and Shapes are perfectly suitable for durable warning & marking of any kind of mobile or static objects.

### GEToolbox® Marking Tape and shapes features especially:

- Excellent combination of high tack and immediate adhesion
- High coating weight for good bonding performance on rough or dusty surfaces
- Full suitability for longterm applications

### Main application

- mounting of plastics signs, rolls and shapes
- traffic routes
- Identification of zones and locations
- Kaizen and 5S activities

### Technical data

Main material	PVC films
Backing material	PVC films
Adhesive color	white
Total thickness	0,61 mm
Type of adhesive	Modified acrylic
Tensile strength	0,2
Width ± 1mm	50 mm; 75 mm; 100 mm

Main material colour	different
Tensile strength	45 N/cm
Type of liner	Silicone paper
Colour of liner	brown
Thickness of liner	80 µm
Weight of liner	82 g/m <sup>2</sup>
Length	50 m ±3%

### Properties

Installation temperature: +18°C - + 35°C  
 Temperature resistance short term: 70 °C  
 Temperature resistance long term: 60 °C  
 Ageing resistance (UV): very good  
 Humidity resistance: very good

Static shear resistance at 23°C: good  
 Static shear resistance at 40°C: medium  
 Softener resistance: good  
 Tack: good

### Processing instructions:

The surfaces must be dry, clean and free of dust, oil, grease and solvents.  
 After application, apply pressure as briefly as possible to increase the initial strength.  
 Loose coatings or coatings must be removed or strengthened.

### Warranty and liability:

Our information and recommendations are based on current knowledge. In the values given in our data sheets are typical or average values. Changes and additions are possible at any time. Because the use of our products is beyond our control, we assume no liability or warranty. We are happy to provide you sample material for test purposes.
